

BAME CONNECTIVITY PROGRAMME

Connecting Leaders, Creating Collaborations, Changing Communities

The Connectivity Programme is a Leadership development Programme designed to aid Collaboration within the BAME Voluntary and Charitable Sector in the Ealing Borough.

Connectivity Programme Details

Over a period of 12 months, BTEG will work in collaboration with you and other established organisations and local authorities. The programme will cover both theoretical and practical aspects of each area; creating a platform to discuss options, challenge concerns and create a mutual way forward. You will be part of and help shape these key areas of Sector Development including:

- Access to organisation development workshops such as Winning Contracts; Branding and Media; Project Management; Strategic Planning; Influencing Policy; Message
- Access to Action Learning and Leadership Development workshops such as Theory of Change; Strategic envisioning; Managing High Performing Teams; Emotional intelligence; Collaborations and Partnerships – models, processes and values; Governance and Trustee development
- A series of support sessions to initiate and instigate relationships and collaborations such as Sharing data –(ownership, law, usage); Joint applications and bids; Joint theory of change; logistics, management and leadership; Sharing resources/office/bulk purchase/shared staff; Engagement with public bodies and corporate sector

Programme Outcomes

A range of skills and competencies will be developed that will directly develop both you and your staff to enable collaborations to develop in the sector, leading to:

- BAME organisations better equipped to establish and development collaborations
- BAME organisations effectively utilise collaborative skills, time and resources
- Organisations understand their risks and responsibilities when working in collaboration
- Increased awareness and access to organisations to collaborate with
- Increased confidence to work in collaboration
- Stronger voices on key issues affecting BAME communities
